Professional Summary

Full-Stack Software Engineer building enterprise and public-sector software with **C#, .NET and SQL Server** on the back-end and **React and TypeScript** on the front end. **Dual Microsoft-certified** as an **Azure AI Cloud Developer Associate (AI-200)** and **Azure Administrator Associate (AZ-104)**, with hands-on **AWS** experience delivering **Amazon Connect** contact-centre solutions for government clients. Acts as **Technical Lead** on client projects, mentors graduate developers, and uses **AI-assisted engineering (Claude Code)** to ship faster. Cum laude graduate and first-place winner of the Boxfusion graduate cohort.

Technical Skills

Languages & Frameworks:	C#, .NET, TypeScript, JavaScript, React, HTML/CSS
Cloud & AI:	Microsoft Azure, Azure AI services, AWS, Amazon Connect
DevOps:	Docker, CI/CD Pipelines, Git
Backend & APIs:	REST APIs, Microservices, Microsoft Bot Framework Composer
Databases:	SQL Server (T-SQL, stored procedures, relational database design)
AI-Assisted Development:	Claude Code, custom agent skills
Practices:	Agile/Scrum, Test-Driven Development, Code Review, Figma-to-Code UI

Experience

Boxfusion, Software Engineer — Feb 2025 – Present
Midrand (Hybrid)

- **Technical Lead** on bespoke client software projects, owning features from requirements and design through to production deployment.
- Deliver **Amazon Connect (AWS)** contact-centre solutions for **public-sector clients**, integrating them with internal systems and Microsoft bot frameworks via **REST APIs**.
- Build and maintain **C#/.NET** backend services that process transactional data for enterprise systems.
- Write, optimise and refactor **SQL Server** queries, stored procedures and table designs.
- Build reusable **React** and **TypeScript** components that keep UI patterns consistent across front-end projects.
- Containerise environments with **Docker** and ship code weekly through automated **CI/CD pipelines** within an **Agile/Scrum** squad.
- Apply **AI-assisted development with Claude Code**, including custom skills, to accelerate delivery and team workflows.
- Mentor graduate developers through code reviews, pair programming and debugging support; advise colleagues on AWS account structures and AWS Partner Network (APN/ACE) processes.

Boxfusion Graduate Program, Graduate Software Engineer — Feb 2025 – May 2025

- **Placed 1st in the graduate cohort** for an internal application prototype integrating AI features with cloud workflows.
- Modularised front-end components in **React**, cutting feature delivery turnaround by **20%** across team sprint tasks.
- Worked across the full development lifecycle, translating design requirements into working software.

Certifications

Microsoft Certified: Azure AI Cloud Developer Associate (AI-200) 2026
Microsoft Certified: Azure Administrator Associate (AZ-104) Nov 2025
AWS Cloud Quest: Cloud Practitioner July 2024
Skillsoft Percipio: Fundamentals of Test-Driven Development (TDD) May 2026
Skillsoft Percipio: CompTIA Tech+ — Software Development Jan 2026
IBM: Data Fundamentals June 2024

Education

BA **University of the Witwatersrand**, BA Digital Arts (Cum Laude) 2021 – 2024

- Focused on front-end development, scripting logic and interface design.
- Top Performing Humanities Student (2023).

NSC **Shree Bharat Sharda Mandir** 2020

- Matriculated with distinctions; majored in Mathematics and Physical Sciences.

Awards

Boxfusion Graduate Program, First Place in Cohort 2025
Wits Cloudathon, Spot Prize Winner 2024

- Built a web application that fetched and updated live cloud-hosted datasets.

Golden Key International Honour Society, Inducted Member 2024
Top Humanities Student, University of the Witwatersrand 2023

Leadership & Community

Mentorship & Women in Tech 2025 – Present

- Mentor graduate developers through technical coaching, debugging support and knowledge-sharing sessions.
- Took part in **GirlCode** mentorship and community initiatives supporting women in software engineering.
